# INDIGO HF-2: THE ULTIMATE CAR TRANSPORTER

This new trailer has been specially developed for the transport of all kinds of cars. The Indigo HF-2 is therefore available in three sizes: 405 x 201 cm & 455 x 201 cm & 505 x 221 cm. and in different loading capacities. The car transporter is even available with parabolic suspension.

The new Indigo HF-2 is easy and practical to use, so that your cargo can be transported safely. Thanks to the beavertail with a ramp angle of only 11 degrees and the two long aluminum ramps (250 cm long), it's easy to drive your car safely on this transporter. In addition, the Indigo HF-2 is richly equipped with 195/50 R13 C tires and a winch with winch support at the front.

In short: the ultimate car transporter!
