SAPPHIRE

BOX VAN TRAILERS

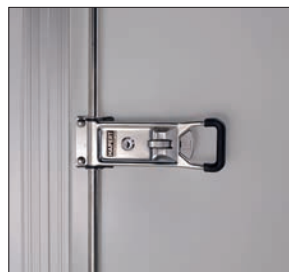

WHY SHOULD YOU HAVE A HAPERT SAPPHIRE?

Our box trailers offer your precious cargo the best protection possible. They feature a super-strong welded chassis and a sturdy construction, so that your goods arrive undamaged at their destination. That's why you should have a HAPERT SAPPHIRE.

L-1

1

All Sapphire models feature stainless steel locks and hinges. All of the joints of the superstructure are glued and sealed completely. The door holdbacks are made from stainless steel too.

2

Thanks to the sturdy bodywork, the Sapphire models are available as single-axle trailers, with a gross loading capacity of 750 kg up to 1800 kg; this increases to 3500 kg for double-axle trailers.

Each of the Sapphire models feature a binding bracket system integrated into the sides with a capacity of up to 1000 kg per piece as standard. This system is TÜV-certified.

3

All of the braked models feature a bolt-on, V-shaped drawbar, high-quality fold-away support wheel and a strong overrun brake with a cast coupling.

4

H-2

Fitted as standard with:

- a high-quality welded and hot-dip galvanised steel chassis
- two rear doors
- a 15 mm-thick multiplex floor panel with an anti-slip layer
- high-quality lighting with a 13-pole plug and reversing light
- a support wheel
- white, multiplex walls, constructed from just one piece (15 mm)
- models bigger than 405 x 180 x 210 cm feature 25 mm polyester walls
- two handgrips mounted on the front
- inside lighting

Various options are possible, including:

- side panels can be made from different types of material: silver-grey or smooth ABS walls
- supports
- a downward hinging rear flap
- aluminium sliding/roller shutters
- side door(s)
- sales flaps
- spoiler or imperial
- spare wheels with support and tail light guards
- extra binding bracket system
- shock absorbers on the axle(s)

10 YEAR CHASSIS WARRANTY

BUILT TO LAST.

It is vital for you to have absolute confidence in your trailer, particularly when your operating processes depend on it too. That's why we develop the very strongest and sturdiest trailers you will find anywhere in Europe. Our tried-and-tested welding technology makes us unique and we supply transport solutions that have got what it takes to take on any job.

The extreme resilience of our trailers means they can be used day in, day out - a reliability you won't find anywhere else. This makes and keeps you mobile, at the lowest cost per kilometre. Whatever the challenge: BRING IT ON!
