SAPPHIRE L: OPTIMUM PROTECTION OF YOUR CARGO

Thanks to the Sapphire L, you can rely on your cargo reaching its destination fully intact.

The durable, closed superstructure has, as a standard, been provided with 2 rear doors with stainless steel lock, hinges, and fasteners. Numerous other options and accessories are available as well, including a side door, a tail ramp, sliding or rolling hatches, and presentation hatches.

As a result of the low loading floor, the Sapphire L hugs the road. In addition, various wall types are possible. Do you intend to provide your closed trailer with commercial stickers? Then choose for smooth ABS walls.
